ED. GAZETTE.—The new Fire Bell recently hung on the Washington Engine House, was at the last regular meeting of the Washington Fire Co., unanimously approved. The bell is cast steel, cast by Taylor & Co., England, on trial of 60 days, if not approved of, at the expiration of that time, to be returned at manufacturer's expense. The result is as above. Its tone is deep and penetrating, very unlike, in sound, any other bell in the town, and is said to be heard at great distance, as any of them though not more than half as heavy as some.

The power of tone, and lightness of weight of the Cast Steel Bells compared with "Composition Bells" of the same size, render them a very cheap and desirable kind. The manufacturers warrant their bells for one year, and say they will stand the effects of the frost equal to any. They have been tried in Europe 6 or 8 years and are thoroughly tested.

The above bell weighs 477 pounds and cost about \$134. The Washingtons wish to return thanks to the citizens who so liberalized them to secure so valuable an addition to the fire department.

NEW YORK.—Those desirous of seeing the prominent sights of the great commercial metropolis without incurring the expense of a trip thither, can have an opportunity Friday and Saturday evenings, Aug. 8th and 9th, by calling at Templar Hall, where will be exhibited that splendid production of art known as "Bullard's New Panorama, a Mirror of New York City," comprising 25 distinct and separate views of notable objects, buildings and localities, each occupying 96 feet of canvas, showing every building and object of full size.

The following, from Hon. J. R. Groves, is one of the many commendatory notices of this celebrated production:

Hall of REPRESENTATIVES, U. S.

March 30, 1853. §

This certifies that I have witnessed the exhibition of Mr. Wheeler's Panorama, and regard it a faithful exhibition of that Empire City which it gives a true and exact representation as well worthy of patronage.

J. R. GIDDINGS.

P. S. All who wish to see New York as it now really is, should see this painting.

The Ohio White Sulphur Springs have been eminently successful this season.—From the opening till the present time the number in attendance has been limited only by the capacity of the establishment to accommodate. In order to be prepared for next season's business the proprietors contemplate commencing the coming fall extensive additions to their buildings, which, with other contemplated improvements, cannot fail to render it the most attractive and popular summer resort in the West.

On Saturday afternoon last as a freight train was approaching the depot on the C. & C. Railroad, an Irish woman came very near being killed in attempting to save her hog, which was lying on the track. In attempting to drive it off the locomotive caught and tore off her dress and came near dragging her under the wheels.

The celebration of the 20th anniversary of British West India Emancipation, by the colored citizens of this county, will take place Monday next at the county Fair grounds. In addition to the regular oration by Mr. GAINES, we understand that Rev. Dr. HARRIS of the O. W. University, and Rev. Mr. FRENCH, will deliver addresses on the occasion.

A conference between the Superintendents of the C. C. & C. and the Columbus & Xenia and Little Miami Railroads, held at Columbus a few days since, it was resolved to take off the passenger train which passes this place between midnight and day light.

The o. j. proceedings of the ratification meeting held at the Ohio White Sulphur Springs on Saturday last, will be found in another column. It was a pleasant and refreshing affair, and enjoyed with a zest by those present.

The Democratic Convention held at Mansfield on Wednesday, for the purpose of nominating a candidate for Common Pleas Judge in this Judicial District, conferred that honor upon Mr. WILLIAM GIVENS of Wayne county.

A new Post Office called "White Sulphur, JOSUA VAN BREMER Post Master, has been established at the Ohio White Sulphur Spring Station on the S. M. & P. Railroad.

A cow was run over and killed a few days ago by the mail train going north, on the C. L. & C. Railroad, near the station at this place.

The citizens of Stafford and vicinity are taking the preliminary steps for erecting a Lutheran Church in that thriving village.

Mr. NEWTON's Fourth of July Sermon, to be found on the first page, will give an attentive perusal.
